

“FCP Direct Investments works closely with FCP Advisory Services, to provide a broader value-added Investment offering to its clients and co-investors”

FCP acts as a value and strategic investor which looks to value-add the companies it invests in by using not only its capital, though also its Advisory Services and industry connections to achieve investment objectives.

In addition to providing its own capital through FCP Direct Investments, FCP can also act as lead investor or sponsor by partnering with a number of investment funds and companies from Europe, USA and Australia as co-investors, allowing such non-Asia based investment funds to participate in structured and managed transactions in Asia and China with understanding and confidence.

Through our combined FCP management teams and resources, FCP possess the experience and knowledge of regulatory, commercial and trade related issues with individual market and cross-border capabilities to structure, guide and realise such investments by working closely with its partners.

In conjunction with FCP Corporate and FCP Advisory, FCP Direct Investments leverages our combined strength of corporate connections and investment structures, giving FCP considerable deal flow, business connections and opportunities.

Through our integrated FCP platform, our dedicated China advisory and investment management team, based in Shanghai, supports our direct investments response by providing transaction advisory and structuring services through to negotiating the challenges of China corporate structuring, regulatory approvals, tax planning and other corporate services.

FCP Direct Investments can act as a lead, seed or sponsor investor providing direct investment capital or co-investment opportunities in and for the following:

- Venture capital opportunities
- Pre-IPO listing Investment
- Acquisitions
- Industry, investment & consolidation opportunities
- MBO and LBO Investment & Financing
- Co-investment under managed investment structures

FCP creates and enhances value in its investments by using its experienced services platform, and combining its skills, capital and industry connections for the benefit of both its investors and the businesses it invests in.
